Orkney Garden Birds

This guide is designed to help people participating in the RSPB Big Garden Birdwatch to identify birds in their garden.

For more ID tips and expert advice, please visit: www.rspb.org.uk/birdwatch

How to use this sheet

- Count the birds for one hour in your garden
- Only include those that land, not those flying over. Record all species of bird, not just the ones featured here.
- Count the most birds of a particular species you see at any one time. So, if you see a group of eight starlings, but later see six together, please write down eight as your final count.
- Submit your results to rspb.org.uk/birdwatch and list what you have spotted. Remember even if you saw nothing, it still counts.

Starling
